Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Declaration Under 37 C.F.R. § 1.131

Applicants' declaration is not sufficient to overcome the Lin et al. reference because: first, the declaration is not dated; and secondly, the declaration is not sufficient to overcome because it does not show due diligence in reduction to practice.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 30-32 rejected under 35 U.S.C. 102(e) as being anticipated by Lin et al.
(20020058409).

Lin teaches a method of fabricating an integrated circuit, comprising a process typically results in a liner/barrier (110,214) or seed (112) layer having thicker overhang portion (111) at the upper corners of a trench (108), via (106), or contact (212). A post deposition sputter etch using low bias is used to reduce the thickness of the overhang portion (111) and avoid a seam in a subsequent fill process. (See abstract.) Lin teaches the trench (206) is etched, and illustrates the patterning provides a bottom, sidewalls,

and mouth (see figures 1 and 2A). Lin teaches, in figure 2D, the filling of the trench (124).

As for claim 31, Lin et al. teaches a seed layer deposited over a barrier (see para. 22).

As for claim 32, Lin et al. teaches barrier layers may be Ta, TaN, TiN, and WN (see para. 21).

Allowable Subject Matter

Claims 9-13, 28, and 29 are allowable. Examiner's statement of reasons for allowance may be found in the office actions filed, 9/21/05 and 9/06/06.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1765

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
